## CAREER OBJECTIVE

A motivated and adaptable individual with a strong commitment towards punctuality, proficiency, and problem-solving abilities. Skilled in writing clear and understandable code, with a natural aptitude for rapid learning. Excited about handling real-world challenges and collaborating with teams to find innovative solutions. Capable of facing challenging circumstances with empathy and resilience.

## SKILLS

**Languages:** Python, Java, HTML, CSS, SQL, JavaScript

**Data Science:** Artificial Intelligence, Machine Learning, Deep Learning,

**Domain Expertise:** Data Structures, Database Management Systems, Operating System, Computer Networks.

**Frame Works:** FireBase, API, Flask, Django, TensorFlow, Keras, Hugging Face, Streamlit, Sklearn, Java Collections, Pandas.

**Operating Systems:** Windows

## INTERPERSONAL SKILLS

Team Leadership | Time Management | Decision Making | Problem Solving | Networking | Adaptability & Flexibility |

## INTERESTS & HOBBIES

Dancing | Gaming | Cricket | Chess | Sudoku

## EDUCATION

**Chandigarh University, Gharuan, Punjab |** Session: 2021 – 2025 | Bachelor of Engineering (Hons.) (Computer Science and Engineering) (with Specialization in Artificial Intelligence and Machine Learning) (In association with IBM)  
Score: 7.54 CGPA

**Narayana Junior College, ECIL, Telangana |** Session: 2019-2021 | Intermediate (TSBIE) | Narayana Junior College, ECIL, Telangana  
Score: 92.6%

**Brilliant Grammar High School, ECIL, Telangana |** Session: 2018-2019 | Matriculation (SSC)  
Score: 8.8 CGPA

## INTERNSHIP & EXPERIENCES

**Full Stack Developer | Indiquer Global Services |** August 2025  
**Developed an Automated Social Media Posting System |** [Link](#)  
Which schedules and publishes content across Instagram, Facebook, Threads, X (Twitter), LinkedIn, and WhatsApp by integrating APIs through developer accounts, improving efficiency in content management.  
**Developed a Billing Software |** [Link](#)  
Using HTML, CSS, JavaScript, and Firebase, allowing company users to manage products, customers, and orders, with WhatsApp integration to automatically send order details to customers.

## CERTIFICATION

**Programming in Java | Infosys Springboard |** [Link](#) June 2025

- Developed Completed comprehensive training on Java programming including OOPs concepts, exception handling, multithreading, and collections.
- Gained hands-on experience through practical assignments and quizzes.

## PROJECTS

**Automatic Feedback Using Emotion Detection |** April 2024  
Developed a responsive web app using Flask and a CNN that detects users' emotions in real-time, providing automatic feedback and dynamically changing the background to enhance interactivity and user engagement.

**Thread-Safe Virtual Directory Management System in Java |** March 2025  
Built a thread-safe virtual file system in Java handling up to 1 million directories, supporting operations like cut, copy, and traversal, using Concurrent HashMap, atomic counters, and synchronized methods to ensure safe concurrent access and maintain structural integrity.

## EXTRA CURRICULAR & CO-CURRICULAR ACHIEVEMENTS

- Excelled in Java on LeetCode: Successfully solved over 110 challenging problems.
- Achieved the Position of the *Best Employee of the month* from Indiquer Global Services.
- Proficient in DSA fundamentals: Effortlessly handled coding problems across various concepts.

Emerging Full Stack Developer | Enjoy tackling complex coding problems.
